

PRESS RELEASE

Jaros Consulting Ltd. Is a provider of accounting and commercial bookkeeping services and advice.

Prague, 3. 1. 2019 - Jaros Consulting Ltd. has announced an expansion of activities in the field of corporate finance administration.

"We are pleased to announce our readiness to provide professional financial services, namely the activities of Accounting Consultancy, Bookkeeping and Tax Accounting", the founder, Mr. Kamil Jaroš, said of the expansion of the business activities of the company.

"The successful growth of our clients is not only our mission, but also our passion. We want to be a reliable guide for all local and foreign entrepreneurs who are looking for effective and efficient consulting services in all areas of business management. These services run from corporate strategy, through marketing communications, corporate culture and delegation, to the management of finance – including tax returns and payrolls", Jaros added.

The quality of services provided by the company is assured by certification in accordance with the Trade Licensing Act and further supported by close cooperation with a senior tax advisor.

The company Accounting Division provides services to all customers from the company's head office in Prague 1, Senovážné náměstí 23, under the direction of Ing. Petra Jarošová, as the statutory representative.

About the Company

Jaros Consulting Ltd. is an international consultancy based in Prague. It has been providing one-stop professional services to international companies since 1998. Comprising a team of customer orientated professionals, it delivers services in the areas of strategy, process management, marketing communication and development of human resources. This includes advice, process management projects to generate increased competitiveness, and outsourcing of activities.

"Management School of Process Excellence" is an educational platform developed by the company and delivered via a group of senior lecturers of international experience. Since 2010, the MSOPE has been providing training courses in the field of the international management. Extended support is offered to working teams, or individuals, by means of professional coaching according to the International Coach Federation (ICF) standards.
